## 2. ABOUT LIMA AND PERU

### 2.1 The City of Lima

Before becoming a colonial capital, Lima was formerly populated by the Lima and Wari cultures. Later on, it became the capital of the Viceroyalty of Peru. The huacas and colonial houses of the city are an example of its historical greatness. Today, Lima is a cosmopolitan center that offers a variety of cultural and artistic options.

It overlooks the Pacific Ocean from a natural balcony that holds nearly 10 million people with thousands of stories and origins. Lima is a city with a past and a future, with innovators and entrepreneurs, and of art, craftsmanship and industry. A glorious city that knows how to celebrate life.

This city full of opportunities is located on the central coast of South America. It gathers all of Peru's diversity and complexity in a vibrant and captivating metropolis. Also, it is the only city in America that stretches from the Andes to the ocean. It has the privilege of being the only capital city of South America located on the shores of the Pacific Ocean.

Lima can refer to a region, a province and a city (Lima Metropolitan Area) as well as a district. It comprises 43 districts (divided into Northern, Southern, Eastern and Central Lima), in addition to the other seven districts that are a part of the province of Callao.

Throughout its history, Lima has been bolstered by immigrants from other provinces of the country and other regions of the world. It has the largest ethnic Chinese

community and the second largest *Nikkei* community in Latin America. It is safe to say it is a diverse city and that multiculturalism is its main resource.

When walking the streets of Lima, you can admire its churches, archaeological sites and colonial houses coexisting with modern buildings. Lima also offers a wide variety of cultural events and is recognized worldwide as the gastronomical capital of Latin America.

## 2.2 Lima's Cuisine

Lima is Peru's meeting point and, as such, it is a melting pot of cuisines enriched by the historic influx of migrants and products from other regions of Peru and the world. It is a huge pantry of fresh products, some of which are impossible to get elsewhere. This wide range of products is the secret to success of the current Gastronomical Capital of the Americas.

Lima gathers all of Peru's rich biodiversity in an exquisite metropolis: limes from the north that are used in cebiche, corn from Cuzco as a side dish for anticuchos and countless native potatoes of every color and texture. Also, Peru's main sources of flavor are its chili peppers; its popular and highly nutritious grains, like quinoa and kiwicha; and its coffee and cacao, which make city life sweeter and more enjoyable. Lastly, Peru is also known for its exotic Amazonian fruits, its aromatic spices from the Andes and its delicious pisco.

And, of course, its seafood. What would Lima's cuisine be without fish and traditional fishermen? But, also, what would Peru's cuisine be without its chefs, the guardians and creators of taste? They are the greatest collectors of historical and ancestral culinary knowledge, creators of new trends and flavors, innovative revolutionaries capable of bringing everyone together at the same table. Thus, Lima combines the knowledge and flavor of an entire country.

There are approximately 220 thousand restaurants in Lima, with several options inspired by the world's flavors and expertise.

Peruvian cuisine was declared "Cultural Heritage of the Americas" by the Organization of American States (OAS) in 2011.

Peru loves fusion cuisine, the abundance of its fields and the fruits of the sea. Its gastronomy is a fascinating combination of splendid climate, exotic —and sometimes spicy— products and a generation of chefs that are the best ambassadors of their cuisine around the world.

Peru has ten products with protected designation of origin such as pisco, Villa Rica coffee, Cuzco's giant white corn and Ica's lima bean. Moreover, it has over 3000 varieties of domesticated potato.

## 2.3 Information about Peru

Peru is located on the west side of South America and covers 1,285,215 km<sup>2</sup> of land and 200 nautical miles of the Pacific Ocean. With over 10 thousand years of history, it boasts great cultural richness, a delicious and award-winning cuisine, impressive archaeological sites, UNESCO World Heritage sites and vast nature reserves.

Peru has more than 31.5 million inhabitants. It can be divided into three major regions: coast, highlands and jungle, giving the country an immense multiplicity of landscapes. These regions comprise 11 ecoregions and 84 life zones of 117 that exist in the world. Due to its diverse geography, Peru has a wide variety of natural resources.

It has abundant forests, generous distances and ancient cultures. It is the third most megadiverse country on the planet thanks to its wide variety of orchids, birds and butterflies, and a lush Amazon, which has been recognized and awarded as one of the Seven Natural Wonders of the World.

Peru is also home to one of the seven wonders of the modern world: the citadel of Machu Picchu. In the region of Puno, over 3800 meters above sea level, you can visit the enchanting islands of Titicaca, the highest navigable lake in the world.

Peru has 12 World Heritage Sites and eight Intangible Cultural Heritage sites, awarded by UNESCO.

More than sixty native languages are spoken in the country, such as Aymara and Quechua. Also, it still preserves a musical scenery with native instruments like the quena and siku, melodies that feature joyful Afro-Peruvian beats and Andean music such as huayno and harawi.

Furthermore, it placed 9th in global entrepreneurship according to the 2015 Global Entrepreneurship Monitor report (GEM). Finally, it also won the World's Leading Meetings & Conference Destination in 2015 at the World Travel Awards (WTA).

Ancient Peruvians were skilled metalsmiths who turned silver and gold into precious jewels over 3000 years ago. They were also amazing craftsmen, who showed their vision of the world in clay pots and carved gourds. Their ancestral techniques were inherited by local entrepreneurs who now sell their products in the most demanding international markets.

Peru is a destination that shares its customs. Close to 3000 traditional festivals are celebrated nationally every year. Peruvian cities such as Lima, Cuzco and Arequipa were listed as UNESCO World Cultural Heritage Sites. Also, Peru was the home of ancient civilizations that grew cherishing the sand of the desert, the heavy rains of the Andes or the humid forests of the mountains.

Peru currently produces 80% of the world's alpaca clothing, an excellent Andean fiber that has become a symbol of elegance and exclusivity. Over 120 thousand families are involved in the supply chain of this valuable camelid fiber.

## 2.4 Peru as Host of Major Events

Peru has organized several sports events and international sports meetings over the years. The 2012, 2013 and 2018 editions of the Rally Dakar and the 131st International Olympic Committee (IOC) Session in 2017 are some examples that it is ready to house world-class events, considering it has both infrastructure and security.

Hosting the 2019 Pan American and Parapan American Games is very important for a city that is committed to promoting sports among its citizens. Lima is getting ready to welcome 6680 athletes from 41 countries of the Americas during the Pan American Games.

The Peruvian capital hosted the I Beach Bolivarian Games (from November 1 to 11 in 2012). A year later, the XVII Bolivarian Games took place in Lima and Trujillo between November 16 and 30, featuring close to 5000 athletes from 11 countries.

Peru has also hosted the "Copa América" on six occasions: 1927, 1935, 1939, 1953, 1957 and 2004. It was also the official venue of the FIFA U-17 World Cup in 2005 and the final was held at the National Stadium of Lima.

Furthermore, Peru had the privilege of hosting the FIVB Volleyball World Championship at the Coliseo Amauta (Lima), the Coliseo Gran Chimú (Trujillo) and the Coliseo Cerrado de Ica (Ica), between September 12 and 25, 1982. Additionally, the FIVB Volleyball Women's U-20 World Championship took place in Lima and Trujillo in 2011.

The South American Games were also held in Lima (from December 1 to 10, 1990). Later on, our country hosted the I South American Youth Games from September 20 to 29, 2013.

As mentioned previously, Peru was part of the Dakar Rally in 2012, 2013 and 2018. Four stages took place during the first year and the race ended in Lima. In 2013, five stages of the world's largest rally were contested in the Peruvian capital. In 2018, six and a half stages of the competition were contested in Peru, starting in Lima and passing through Puno to its final stop in Bolivia.

Moreover, the 131st IOC Session was held in September 2017 at the Lima Convention Center in Peru, with the presence of leaders of the National Olympic Committees. During this meeting, Paris and Los Angeles were chosen as host cities of the 2024 and 2028 Olympic Games, respectively.

In 2011, the 3rd FINA World Junior Swimming Championships was held in Peru. The competition venue was Campo de Marte.

A variety of sports events can be hosted in Peru due to its natural areas and its infrastructure. Off-road *races* across dunes and mountains, ultramarathons through the desert, triathlons on the shores of the Pacific Ocean and multi-sports games on different sports stages are some examples that show that Peru is an attractive place to organize high-impact competitions.

## 2.5 Currency

The national currency is the sol (PEN), but the American dollar (USD) and the euro (EUR) are also accepted.

## 2.6 Language

Spanish, the official language of Peru, is spoken by 84% of the population. In addition, 47 indigenous languages, including Quechua and Aymara, are spoken in the country.

## 3.1 Milco, Lima 2019 Official Mascot

Milco is a very cheerful, optimistic and friendly mascot, whose arms are always open, ready to welcome all visitors who arrive to the Lima 2019 Games.

Lima has a cultural background that makes us proud, and that is what our mascot highlights. One of Milco's favorite colors is red —also the color of our flag— because it represents passion! He wants to transmit this passion to all Lima 2019 participants, so that they give their best in each competition.

Milco is based on *cuchimilcos*, statuettes from the pre-Hispanic cultures of mid-western Peru such as Lima, Chancay and Chincha. This mascot was chosen by popular vote, when he obtained 19,895 votes. He beat two other candidates: Amantis, which represents the amancaes flower, and Wayqi, a *gecko* from the huacas of Lima.

A total of 44,514 people from Peru and abroad participated in selecting the Pan American and Parapan American Games mascot. With this number a new voting record was set, breaking that of Guadalajara 2011 and Toronto 2015.

Initially, over 1000 design proposals from across the country were submitted. From there, a specialized jury selected three finalists. They then entered an online popular vote on the Games' official website ([www.lima2019.pe](http://www.lima2019.pe)).

### 5.3.2 Keirin

Riders will compete in heats of four to eight riders. The race will run over six laps of the track. For the first 3.5 laps, the riders must remain immediately behind a derny (a light motorcycle), which will progressively increase its speed from 30 to 50 km/h. The derny will exit the track with approximately 2.5 laps to go (between 600 to 700 meters from the end) and the riders will complete the remaining distance.

### 5.3.3 Team Pursuit

The team pursuit is an event in which two teams face each other starting at opposite ends of the track. The competition for men and women takes place over 4 km with teams of four riders. During this qualifying round, each team will compete alone. According to the number of athletes entered, the commissaires' panel can decide if heats will be contested with the two teams on the track. The team that catches up with the other team or makes the best time wins. Qualifying rounds will be held in order to determine the eight best teams.

The eight teams with the best times in the qualifying rounds shall face each other in the first competition round as follows:

- The team with the 6th fastest time against the one with the 7th fastest time.
- The team with the 5th fastest time against the one with the 8th fastest time.
- The team with the 2nd fastest time against the one with the 3rd fastest time.
- The team with the fastest time against the one with the 4th fastest time.

The heats must be contested in the inverse order to that stated below.

The winners of the last two heats in the first competition round will compete in the final for first and second place.

The remaining six teams will be ranked according to their time from the first competition round. The two fastest teams will compete in the final for third and fourth place.

### 5.3.4 Team Sprint

In the team sprint event, two opposing teams face off, each of whose riders will lead for one lap.

The men's event is run over three laps of the track by teams of three riders.

The women's event is run over two laps of the track by teams of two riders.

The qualifying events will determine the best four teams based on the time they made.

The two teams with the best times will compete in the final for first and second place; the other two teams will compete in the final for third and fourth place.

### 5.3.5 Omnium

This single competition will comprise six events held over one day. Riders will score points based on their ranking in each of the first three events. Each winner will be awarded 40 points, each first runner-up will be awarded 38 points and each second runner-up will be awarded 36 points, and so on. Before the start of the points race, an updated ranking will be established based on the total points earned in the first three events. Riders will win or lose points according to the corresponding regulations for the points race. The winner will be the rider with the most points at the end of the points race. The four events, in order, will be the following:

- Scratch (10 km men - 7.5 km women)
- Tempo race (10 km men - 7.5 km women)
- Elimination
- Points race (25 km men - 20 km women)

### 5.3.6 Madison

Madison is an event that is contested with intermediate sprints between teams of two riders. The ranking is determined according to the total points earned by the riders.

Intermediate sprints will be disputed every ten laps, with a total distance equal or close to 50 kilometers for men elite and 30 kilometers for women elite.

Five points will be awarded to the first team of each intermediate sprint, three points to the second team, two points to the third team and one point to the fourth team. The points earned in the last sprint, after covering the full distance, will be doubled (10, 6, 4, 2 points).

If there is a tie, the final sprint ranking will be the tie breaker.

A team that gains a lap on the main bunch is awarded 20 points.

A team that loses a lap on the main bunch is deducted 20 points.

Riders of a same team may relay one another at will by a touch of the hand or the shorts.

Sprints shall be carried out according to sprint regulations.
